

Current Price list for Wilson F/X components

11-2022

LCU-64	64-pad digital launch controller - The brains of the WFX system, for up to 8 banks of 8 pads each. Reads good/bad continuity of each pad, reads voltage from the battery at the pad. May only select one bank of pads at a time. All features work hard-wired or wireless.	\$300
LCU-64w	– Same as the LCU-64 except it has a built-in wireless unit	\$425
LCU-128	Same as the LCU-64 except controls 16 banks of 8 pads each for a total of 128 pads.	\$375
LCU-128w	– Same as the LCU-128 except it has a built-in wireless unit	\$500
LCU-64X	Custom 64 pad controller with 17x RGB LED status lights on all Pads, banks, & Key switch, built in wireless unit, LCD screen with remote voltage readings from banks of pads, on/off/volume control on the buzzer, all in a custom Pelican Case with aluminum anodized insert switch/light face plate.	\$1200
LCU-128X	Same as the LCU-64X except with 16 banks of pads rather than just 8 banks of pads.	\$1400
PBU-8	An 8-pad pad-box with 8x, 30' igniter leads. This is the large muscle of the WFX system. Reads good/bad continuity at the pad, as well as voltage of battery at the pads. Continuity check is safe for ALL known commercial igniters including flashbulbs.	\$525
PBU-8w	Exactly the same as the PBU-8 with one exception, there is a built in Wilson F/X wireless unit	\$650
PBU-4	a 4-pad pad-box with 4 igniter leads with all the same features Of the PBU-8 in a smaller size and for a smaller price.	\$375
PBU-4w	Exactly the same as the PBU-4 with one exception, there is a built in Wilson F/X wireless unit	\$475
PBU-1	a single pad pad-box with one igniter. A single pad version with The same features as the PBU-8 only for just one pad	\$225
PBU-1w	Same as PBU-1 with addition of built in wireless unit,	\$325

WRU-c	a plug/play digital wireless unit (tx & rx) 2x required to start	each sold at	\$170
LCU-1	A single pad controller for the individual with remote voltage reading from your PBU-1		\$225
LCU-1w	A single pad controller with all the same features as the LCU-1 with the addition of a built-in wireless unit.		\$325
LCU-4	A four pad launch controller for a max of a 4-pad system.		\$275
LCU-4w	Exact same as the LCU-4 with addition of built in wireless		\$375
ARM-1	The Armageddon Switch for clubs that want to do MASS Drag Races of all their WFX pad-boxes, All at the same time. Not for the faith of heart. Bypasses normal single bank only selection.		\$150
WRU-Adpt	The special power adapter for a W-F/X controller and its WRU-c transmitter for an all-wireless W-F/X system.		\$ 40
SPW-std	This is the Single Pad launch system which includes the LCU-1w and a PBU-1w built into standard W-F/X NEMA enclosures.		\$625
SPW-Pel	This is the Single Pad Wireless launch system in Pelican Cases. All the features of the LCU-1w and the PBU-1w with the addition of being housed in Pelican Cases with custom aluminum front panels.		\$925
-----			
HLS-h-std	A hardwired hybrid control system with two ignition circuits along with a FILL and a PURGE circuit.		\$625
HLS-w-std	A wireless hybrid control system with two ignition circuits along with a FILL and a PURGE circuit.		\$825
HLS-w-Pel	A Pelican cased wireless hybrid control system with two ignition circuits along with a FILL and a PURGE circuit.		\$995
	A Hybrid system in three Pelican cases that remotely monitors the amount of NO2 being loaded in the rocket on the pad before lift-off is available.		\$2150
